ance Notes on Codes and Abbreviations" appearing at the begin-  
ning of each regular issue of the PCT Gazette.

(54) Title: THE USE OF UROCANIC ACID BEING ABLE TO ACIDIFY THE CELL CYTOPLASM AND FOR PREVENTING  
OR HALTING CELLULAR PROLIFERATION IN A PERSON

(57) Abstract: This invention relates to the use of urocanic acid or another pharmaceutically acceptable agent being able to acidify  
the cell cytoplasm, for the manufacture of a pharmaceutical composition useful for causing inhibition or halting of transformed  
or non-transformed cell proliferation in a person or an animal, wherein an effective amount of said agent is administered in an  
essentially non-dissociated form to the person or animal. This invention also concerns the use of said agent as an enhancer for other  
therapeutically active agents. The invention also concerns a pharmaceutical composition.
